In the era industrialization and urbanization, we are facing large number of environmental issues globally. A large number of organizations are contributing their role in reshaping the natural environment. The master role of these organizations is appreciable at local as well as state and National level. Eco Club, one of the prime organizations that are playing its key role in restructuring the altered environment. **Basodan Eco Club GC Chowari**, is contributing by spreading awareness among youths and society about topmost environmental issues like, Deforestation, Ozone depletion, Climate change, Resource depletion that needs special attention well in time. It attempts to foster an eco-friendly environment in the college campus as well as in surroundings where we live by undertaking various small and large scale events.

In the academic year, 2021-2022, the eco-club had organized various events and activities. The brief summary of these activities are as under-

A) Joint activities with Red Ribbon Club, GC Chowari

1) Observance of World Environment Day, 2021

On dated 5th June, 2021, Basodan Eco Club in association with Red Ribbon Club, GC Chowari organized awareness campaign to celebrate World Environment Day. On this day, three major activities were executed viz. "Poster Making competition", "Slogan Writing competition" and "Expert talk" by Resource person. The day was celebrated on theme, "**Ecosystem Restoration- Reimagine, Recreate and Restore**". Talk was delivered through online mode (Power point presentation) by Dr. Vikrant Jaryan, Associate Professor, Sant Baba Bhag Singh University. The event was presided by Principal GC Chowari and inaugurated with welcome speech by Pitamber Dutt Sharma (Assistant Professor Botany). The session was moderated by Dr. Manoj Kumar (AP, Zoology) and Dr. Satya Prakash (AP Geography). Overall, the event was coordinated by Mr. Roop Lal (AP Botany and In-Charge, Basodan Eco Club) and Mr. Amit Khan (Clerk).

During the session, Dr. Jaryan had nicely explained some important terms such as- fragmented ecosystem, restoration, dangers of biodiversity loss, resilience, reclamation, restoration and so on. He further requested all the listeners to plant more and more trees and guided them how one can protect and restore environment at its own level.
